CANADIAN EXPRESS WORSE THAN H. G. & B.

Of the Two Evils, Choose the Least; Ship Your Fruit by H. G. & B.; Express Service Falls Down Completely.

THOUSANDS OF BASKETS WASTED

On Account of the Utterly Inefficient and Miserable Service the Fruit-Growers Have Lost Thousands of Dollars.

FRUIT TRAINS LATE

The Company's Service in 1914 Can Be Compared to Nothing but a Heeey. Spavined, Ring boned Kne-sprung Horse.

Although the Canadian Express Company has been carrying fruit for over a quarter of a century, its service during the past month has been the worst in the history of the company and of the fruit industry.

It would be supposed that after a business experience of over thirty years the Canadian Express Company would have got its transportation service down to a scientific point and would have been able, in the year 1914, to give the fruit growers of the Niagara District a service par excellence.

Instead of that, the Canadian Express Company's service out of the Niagara district during the past two weeks has been a complete farce, collapse and breakdown.

On account of the utterly inefficient and miserable transportation service given by the Canadian Express Company, the fruit growers of the Niagara district have lost thousands of dollars in a year when they can ill afford it.

It seems that it never rains trouble but it pours. The fruit growers of the Niagara district have suffered a severe loss this season, on account of the fact that the peach crop is a failure. They were in hopes that when the peach crop was a failure, all other fruits would bring them good prices, but the contrary is the fact, and added to the general low prices, comes the miserable, dilapidated service of the Canadian Express Company, which adds to the fruit grower's troubles and as a matter of fact wipes out his profit.

Thousands upon thousands of baskets of the finest fruit have been wasted, simply because the Canadian Express Company had such a miserable service that they did not get the fruit into the market until hours and even days after the market was over.

Fruit shipped to Ottawa was carried through to Montreal and brought back to Ottawa a day after it should have been sold, with baskets broken and damaged, fruit stolen and fruit injured, jammed and rotted.

Fruit shipped to Montreal never reached the market there until the second day after it started on its journey.

The fruit train supposed to leave Grimsby at four o'clock in the afternoon has still been in the Grimsby Yards at eight o'clock at night, because the old, third class engine was unable to pull the cars out of the siding.

The express train which should have left Hamilton at ten o'clock at night was still there at nearly daylight the next morning.

CIVIC HOLIDAY WILL BE A BIG DAY AT THE BEACH

44th Regt. Band Will Render an Excellent Programme on the Picnic Grounds from 6:30 to 8:00

NEW SPECIALTIES

The Knickerbocker Company Are Playing to Good Houses Every Night—"The Village Blacksmith" on Holiday

The Knickerbocker Co. at the Auditorium has been drawing big houses the past week and the Saturday night house was by far the best house of the season outside of Dominion Day night, which is a sure sign of the gaining popularity of this clever organization.

The bill the first half of this week has drawn good houses on the two nights played and promises to be greeted with a corking house tonight.

The bill itself is full of "pop" and "go" and deserves excellent patronage. Messrs. King and Mather and Miss Hale severed their connection with the company on Saturday night and left immediately after the performance for Chicago. Their places will be taken by people who are now on their way from the "Windy City."

A new innovation has been introduced at the Auditorium, that of specialties between the acts to do away with the long wait necessitated by the changing of the scenery. As this house has no "fly-gallery" it takes a longer time than usual to change sets, and in order to do away with this wait on the part of the audience, specialties have been put on.

The bill for Civic Holiday matinee and night, is "The Village Blacksmith," a story full of love and good clean rural comedy. The story is one of the sweetest tales ever written. Special scenery has been prepared for this bill and the company guarantee you the best show of the season.

The great play "Ten Nights in a Bar-Room" will be presented on Monday, Tuesday and Wednesday nights, August 10, 11 and 12 and promises to be the best production of this famous play ever seen in this district.

This play, as you all know, is written around the curse of drink and contains the greatest of all great morals.

On Civic Holiday night, Reeve Fleming will present to Mr. Sam Brandstetter, the comedian of the company, a testimonial for his bravery in saving two lives from drowning at the Beach a week ago.

Civic Holiday will be one mighty big day of fun and frolic at the Beach and we want you all to pack your lunch basket and bring the wife and family and have a good time.

Everything will be running full blast and the management guarantee to give you the biggest time of your life. This day is also Toronto's big holiday and the boat company promises big crowds from the Queen City.

In the evening a grand free band concert will be rendered on the picnic grounds by the 44th Regt. Band of Grimsby, and Bandmaster Howard has prepared an exceptionally strong and tasty program for this occasion.

FRESH EGGS CHEAP

Can be had throughout the winter and spring, if you purchase your supply now and preserve them in glassine. Glassine forms a thin glass coating over the egg which renders it impervious to taint or deterioration. It is the modern way of packing eggs. 15c and 25c per tin.—Parke & Parke, Market Square.

LIVINGSTON, AVE. IS A DISGRACE TO GRIMSBY

For a stranger coming into GRIMSBY on the H. G. & B. or by motor, he must say that he will be pleased to see the clean, tidy condition in which the Reeve Randall and Supt. of Works Bromley have Livingston Ave. The road itself is in none too good a condition, but that could be passed over and "Get about weeds!" Say, if a man ever stepped off the sidewalk he would "Get in the Woods." Livingston Ave., as it stands today, is a disgrace to GRIMSBY and the whole Niagara District. The weeds along the H. G. & B. tracks are anywhere from one inch to three feet high and as thick as they can possibly grow, and they are not much better along the sidewalks and ditches. GRIMSBY has a Supt. of Works to look after these things and if he doesn't do his job better go back to the old system of letting the chairman of the Board of Works do the work. Possibly Supt. Bromley has not had the time to run his attention to the streets and the weed question; if so, then it is up to Reeve Randall to see that he gets sufficient help of a capable nature to help him out. There is neither sense nor reason for the condition that this avenue is in, and it is high time that some one made a move.

THE ARMY WORM INVADES LOUTH

The Worm Is Working Great Damage on Farms in Vicinity of the Experimental Farm.

EVERY PRECAUTION IS BEING TAKEN

The Pest Is Not Unknown in This District, but This Year the Conditions of Nature Cause Them to Flourish.

CONTROL MEASURES

Ontario Department of Entomology Sends Out Instructions on How to Spot Pests and Kill Them.

The army worm has at last invaded the Township of Louth and is doing great damage on at least the farms in the vicinity of Vineland, far from the Government Experimental farm.

The pest has taken possession of the farms of Walter Laidman, Wm. Turford and Edward Brett on lots 22 and 23, and a field of rye has already been destroyed. Three or four fields are badly infested, the extent of the damage of the various crops and the worms extending over about twenty acres.

Every known precaution against the spread of the pest is being taken. The army worm is not unknown in the district, but this year the conditions of nature have so changed that the worms when they come into the district, and the parasite which naturally exterminates the worm naturally, is not able to carry out its natural work. A certain fly in past years has hatched an egg on the back of each worm in this district, which when hatched, has produced a maggot which is deadly to the worm. This year the work of the fly, for some unknown reason, has not been carried out.

The method that is proving efficacious in preventing the spread of the pest is to plough a deep furrow and in the bottom of this furrow dig post holes.

Residents of the locality hope to effectively stop the spread of these worms before they make much progress.

Control Measures

The army worm is a stout, smooth-bodied caterpillar, blackish or brownish in color, with two yellowish stripes, tinged with red, along each side. When full grown it is about 1 1/2 inches long. The adult is a moth which lays her eggs chiefly on grass in low lands. The caterpillars themselves never lay eggs or produce live young. The favorite food plant are grasses, timothy, oats, corn and millet. When food becomes scarce the worms move in enormous numbers in search of new feeding grounds.

As the pest is being reported from numerous counties, every farmer should examine his fields from time to time to see if they are being attacked. If the insects have become distributed all over the field before being noticed, the wisest course will be to cut the crop at once if it is timothy or grain and use for hay, but if it is corn, scatter lightly through the field a poison mixture, made of 1 lb of paris green mixed thoroughly in 25 lbs of bran, and then moisten with water, sweetened with molasses. Make the mixture just moist enough to fall through the fingers like sawdust—not sloppy.

If the crop is threatened or attacked only in part, dig a trench immediately in front of where the worms are. In the case where the crop is partly attacked, it will be found advisable to cut a swath through the grain, and rake this off before the trench is dug. The trench is often unsatisfactory, especially in clay soil, if not properly made. It should be at least 18 inches deep, in clay soil, with a straight clean side.

H. G. & B. SIDE-TRACKS A CAR TO COLLECT TICKETS

A Car Loaded to Double Its Capacity Was Held Nine-and-One-half Minutes Till Conductor Got the Nickles.

MANAGER KNOWS NOT

The Radial Line to Burlington is as Bad as the H. G. & B. Residents Will Ask For an Investigation.

Great sages and wise men tell us that the older we get the better we get and the older things get, the better they get. But the man who made these statements never saw the H. G. & B. for the older this road gets the worse it gets, until in about two years time there will be no road at all, it will have just fallen to pieces by the wayside and disappeared.

We have remarked before in these columns that the Manager (whoever he is) of the H. G. & B. is a man who is distracted by the work and that he has in running this unbalanced line and we again state that we think that he is about due for a trip to the country to give his weary brain a rest.

The trouble with the Manager of the H. G. & B. is that he never knows what is going on, on his line. Saturday night last was a good example of this.

At ten-thirty about four car loads of people were at the Beach ready to come home. In pulled one car, but happily and more by good luck than good management, a second car came straggling along in a few minutes and the two cars brought nearly four car-loads of people into GRIMSBY.

When the first car got on to the main road it stopped and lay there for exactly nine-and-one-half minutes while the conductor fought and tore his way through the crowd and collected the fares. The car was twenty minutes late into GRIMSBY.

Can you beat that? Fill a car so full of people that you have to stop it or people get for nine-and-one-half minutes while they collect the fares. Of course it comes right back to the old argument, that the H. G. & B. motto is, "Give us the money, the public be damned."

The H. G. & B. did not care whether there was one car-load or five car-loads of people on that car as long as it got the money, nor did it care how long the people had to stand on a side track, packed in like sardines in a box so long as that conductor garnered all the nickles in sight.

We clip the following article from the Hamilton Herald of July 25:

Several prominent beach residents while talking to-day of the service of the Hamilton radial, which they call "abominable," stated that in view of the fact that appeals and petitions to the company officials had won little or no recognition, the last resort available—that of submitting their grievances to the Dominion railway commission—would be adopted.

This sentiment, which is said to be popular, was engendered by a beach resident who is a commercial traveller. During the course of one of his trips he called at Forest, Ont., and there learned from several customers that a deputation composed of representative citizens of the community were going to bring the Grand Trunk railway company to book by approaching the railway commission, in connection with the miserable service between Stratford and Sarnia.

Three trains were taken off this track several months ago, but it is understood that they will be re-established on the schedule, as a petition signed by hundreds of signatures favoring the move is in the hands of the commission.

"We will do the same thing on the beach unless radical changes are made on the Radial line immediately," spoke a well known resident to-day.

You can see by the foregoing article, folks, that the INDEPENDENT has not been talking through its hat, when it said that the Manager of the H. G. & B. did not know his business. The people who use the radial line

MANY SUITORS FOR DAUGHTER OF SENATOR

Miss Lucy Burleson Denies Report of Engagement to United States Attorney-General McReynolds

THE ONLY BACHELOR IN U. S. CABINET

This Is the Sixth Time that the Pretty Texas-Washington Girl Has Been Reported Engaged

WASHINGTON WAITING

Miss Burleson, Her Mother and Married Sister are Spending Summer at Lake Lodge Grimsby.

The Toronto Star of Monday, July 29, printed the following article which will be read with much interest by Grimsbyites:

Grimsby, Ont., July 27.—Notwithstanding the efforts of the Washington society reporters, Attorney-General McReynolds, at the age of fifty, is still the only remaining bachelor in the United States Cabinet, and is not engaged to marry Miss Lucy Burleson, the twenty-one-year-old daughter of the U. S. Postmaster-General. At least, both of the principals say they hadn't heard of it and Miss Burleson, who is staying here, is annoyed.

"It isn't as if it were the first time they've done it," she complained, as in the role of Undine with her long hair flowing over her shoulders to recover from a plunge in Lake Ontario, she talked for publication from a shady section of the lawn of the Drope school, for boys at GRIMSBY, Ont., where she is leading a "back to nature" life with her mother and small pupil sister this summer. "It's the sixth time they've engaged me to someone," she continued more in amazement than anger.

The press portraits of Miss Lucy Burleson remind one of her because they are so different. She is a pretty maiden of the "nose tip-tilted" like the petal of a flower, "type and Washington will probably continue to report her engagement to eligible bachelors and stray dukes, confident that some day they will be justified.

Seen Together, Conclusion Drawn "It will be so hard for us when I go home," she mourned, looking at the clipping in her hand, which had been sent by a sympathetic chum back in Washington. "Mr. McReynolds is fond of both my little sister and myself and he took us out quite often. Now he won't care to do that any more. Someone just started the report from having seen us together at some functions."

Still with a polite desire to please everybody, Miss Burleson flashed, laughing like a mischievous ten-year old girl. "Really I'm sorry I can't tell you something warmer reading, doesn't it? But it's no use because there isn't anything in the report."

All of which leaves Attorney-General McReynolds still the only bachelor in the U. S. Cabinet. Mr. McReynolds, apart from the honor of having remained a bachelor, is distinguished particularly for his activity in fighting to enforce the anti-trust laws.

CAR TURNED TURTLE

Beamsville, July 27.—Though battered and seriously shaken up, seven people escaped from beneath an auto mobile that had turned turtle, and are alive. Mr. and Mrs. George Konkle, their two children and mother besides Mr. and Mrs. V. Bessey were in the machine at the time, returning from the band concert at Victoria Park, Vineland, Friday night. Mr. Konkle was driving carefully, but just outside the corporation collied with a wagon driven by W. Deas. In a moment the machine was over and the occupants pinned beneath. The children were not injured in the slightest, but Mrs. Bessey was hurt about the back. Mrs. R. O. Konkle suffered a fracture of the nose and the owner a severely wrenched arm. Mr. Bessey had one rib broken. Mr. Deas also received a shaking up and his rig lost two wheels in the mix-up. The wind shield and top of the auto were demolished. Dr. Elmore was called up and gave the injured medical attention.

PRE-COOLED GRIMSBY CHERRIES REACH WINNIPEG

The Fruit Arrived in Excellent Shape, and Sold for 22 cents More Than the Ordinary Shipped Goods.

MR. SMITH IN CHARGE

The Car Was Six Days on the Road and the Results Show that the Pre-cooling System is a Success.

The car load of cherries shipped by the pre-cooling plant to Winnipeg arrived there in excellent condition and sold out readily at twenty-two cents per basket higher than cherries that had been shipped in the ordinary way, although there are no peaches this year. The pre-cooling plant is a real test, and sufficient has been done with cherries to show that the plant is going to be a great benefit to the fruit growers of the Niagara District, by proving the benefits of pre-cooling.

We clip the following article from the Winnipeg Free Press:

With the opening of the Ontario fruit season the Dominion government has started experiments with shipping pre-cooled fruit by freight from the Niagara fruit belt to the Winnipeg market. The first shipment of pre-cooled fruit arrived in Winnipeg this week, the shipment being made up of 2,280 six-quart baskets of Montmorency cherries, which arrived in the city in fine condition. The cherries were in so much better condition than those brought in in the old way that they brought from 12 to 20 cents a basket more than the cherries brought without treatment.

This is the first of a series of investigations of fruit cold storage and transportation taken up by J. A. Rudick, dairy and cold storage commissioner of the Dominion Department of Agriculture at Ottawa. To carry on these investigations the government has erected a large cold storage and pre-cooling plant at Grimsby, Ontario. The purpose of pre-cooling is to lower the temperature of the fruit before shipment, thus making it possible to hold the fruit at a low temperature during the transit by freight. In this way fruit may be shipped by freight instead of by express and arrive at its destination in better condition.

Took Six Days The car which was six days in transit was accompanied by E. Smith,

Facts and Fancies

By Frank Fairborn

A short time ago I stated in these columns that the Globe hotel, in the Town of Collingwood was controlled by the temperance people and that Provincial Inspector Aycarst had found a quantity of whiskey in the hotel.

This information I received from despatches sent out from Toronto, which were published in several newspapers, throughout the country.

I am now in receipt of a letter from Mr. H. Lamont, president of the Citizens' Temperance League of the Town of Collingwood, in which he emphatically denies both statements.

Mr. Lamont says that the temperance people did not purchase the Globe hotel, nor had they anything to do with the running of it directly or indirectly, nor had they formed a syndicate, nor had they anything to do with any hotel in Collingwood.

Mr. Lamont further states that Provincial Inspector Aycarst did visit the Globe hotel, but found nothing illegal and had no charge against it whatever.

It has always been my object and will still be my object to publish, write and state the truth, the whole truth and nothing but the truth, but the question is "How am I to get the truth?"

The despatch sent out from Toronto and published in many papers was apparently the truth, but Mr. Lamont emphatically denies it and at present writing I must take Mr. Lamont's word for it, as I have the statement over his own signature and must admit that present appearances are that the despatch was misleading.

The newest thing is Michael Joyce for Controller!

Michael was in GRIMSBY on Wednesday last and as soon as he got off the car, he made a bee line for the INDEPENDENT office.

When Michael entered the door he was arrayed in a pair of spotless white trousers, an Irish linen vest, a dark seer-sucker coat, and a nifty straw hat.

"Where's the boss?" says Michael.

"Here I am" says I.

"How do you do?" says Michael, "and you're looking well."

"Thank you" says I, "you're looking younger every day yourself."

"Come, have a cigar," says he, "I have something important to tell you."

"Thank you," says I "it's just about my second smoke time."

After we had enjoyed a cigar each, out of a good sized tumbler, we strolled out on the street to enjoy the balmy air and chat about old times.

"D'ye mind the time when you were running the Morning Post in Hamilton and I was a candidate for mayor?"

"Indeed I do," says Michael, "and you had a narrow escape from being elected."

"Feth and you're right," says Michael, "I had a good chance of being elected that time sure, but I pulled out and allowed Colonel Hendrie to get the honor."

"Listen to me," says Michael, "I'll tell you something. D'ye know what my next move is?—for controller."

"By Jove!" says I, "that's your meat Michael. Go to it and I'll back you."

"I will," says he "and I think I'm a winner."

"Good on your head," says I, "Good-bye, may the Lord bless you."

"Good-bye," he says "and though you are an Ulsterman and I am a Home Ruler, we will stick together till the last dog is hung."—Michael made for the trolley car and I returned to my labors.

By the way, Michael and I sprung some pretty fair jokes on some of the GRIMSBY boys when he was here.

I introduced him to H. K. Griffith and told Griffith that Michael handled a lot of real estate.

Griffith, who had an eye to business, says "Are you a real estate dealer?"

"Yis," says Michael, "I have handled more real estate (wid a shovel) than any man in the City of Hamilton."

Michael's a great Liberal but I judge from a word or so he dropped that he didn't vote for the Liberals this year.

I said to him "How did you like Abolish the Bar, Michael?"

"My oh my!" he replied, "wasn't it too bad for a foine mon like Dr. Davey to get mixed up wid that thing—the doctor should have had more sense than to hitch up with a dead one like that, and he's a nice mon too."

War has started in Ireland but not in Ulster—Dublin is the scene of bloodshed.

It is strange that the Nationalists or Home Rulers in Ireland were the cause of the first bloodshed and the first clash with the British soldiers, instead of the Ulstermen.

On Sunday afternoon, July 26, there was a serious riot in Dublin, during which four people were shot to death and sixty wounded by the regulars, who were endeavoring to prevent the Nationalists or Home Rulers from gun running.

Early in the day one thousand Nationalist volunteers paraded and marched out of Dublin to a place called Howth, for the purpose of landing one thousand rifles.

The authorities sent a detachment of eighty policemen and one hundred men of the King's Own Scottish Borderers to stop the gun running and disarm the volunteers.

The volunteers resisted and a sharp fight ensued. Several persons were hurt by the clubs of the policemen and by rifle butts and bullets.

Many of the volunteers fled and made their way back to the city through the fields carrying their rifles with them.

When word reached the city that there had been a fight, there was great excitement and the streets were filled with mobs.

As the soldiers passed through the streets the mobs pressed around them and threatened the soldiers with their revolvers.

The troops were ordered to fire a volley over the heads of the mob, which was done. The mob ignored this and then the soldiers fired a volley of ball cartridge into the crowd. A number of people dropped and there were shrieks of rage and pain, but the soldiers were allowed to proceed to their barracks unmolested.

Three men and one woman were shot dead and from thirty to sixty persons (mostly men) were wounded.

Thus we have the first war and bloodshed over the Home Rule Act in Dublin instead of Belfast.

While things are moving in Ireland they are also moving in Europe and Austria and Serbia are in the swirl of a war cloud which may plunge the whole continent into a struggle.

Despatches on Monday morning say that Austria has practically declared war on Serbia.

Should the two countries actually go to war Serbia will be backed by Russia, France and Great Britain Germany and Italy will back Austria.

With things in such an uncertain state in Europe, my advice to the British Government would be to let little Old Ireland alone.

The late President Huerta of Mexico has jumped out and taken his pockets full of money with him.

After he left Mexico things looked so much like peace that some of the politicians set about starting another revolution.

KAPANGA HORSE at Grimsby

The champion thoroughbred Stallion, Kapanga Horse, will stand
for service during the season of 1914, at the Race Track
Grimsby, Ontario.

This horse is highly bred and a great race horse. He is by Spend-
thrift, by Australian, and his dam is the imported
Kapanga, by Victorious.

He is a full brother to Kingston, winner of one hundred and thirty-
nine thousand dollars.

Parties wishing to breed saddle horses or race horses should see
Kapanga Horse right away.

For full particulars and breeding see bills.

against the tobacco trust and the anthracite coal railroads, before the advent of President Wilson. Miss Burleson was born in San Marcus, Texas, where her home was until her father was appointed to the U. S. Senate.

Washington Watching Her
Miss Lucy Burleson is the second of three daughters of the United States Postmaster-General, and entered society at Washington two seasons ago. Since then the eyes of the wedding-loving Capitol City have been following her every movement, to her amusement and embarrassment. She is extremely pretty, with the clear olive skin which is becoming almost typical of the outdoor American girl; large hazel eyes and straight golden brown hair. She is a quaint little mixture of child and woman; first laughing at the idea of her engagement to the 56-year-old Senator; then drawing her five-foot nothing up in dignity to say that "People have a right to circulate reports of that kind until they are authorized by the people really interested."

Mr. Drope's school is a quiet old home way out from the town of GRIMSBY, down on the lakeshore. All the pupils have gone to their homes, and here the family of Postmaster General Burleson are spending an ideal summer vacation. Jean, the youngest daughter, is a pupil at the school. With her are Mrs. Burleson, Miss Lucy Burleson and the eldest daughter, who is married, and whose small son, aged four months, lies out in sublime content on the grass watching the leaves overhead and pulling his aunt's hair for recreation. "Isn't he a lovely baby?" demanded Miss Burleson rising to say good-bye. "I've been teaching him to smile when I tell him to, but he's a bad boy and won't always do it."

THE ARMY WORM

(Continued from page 1)
towards the crop to be protected. Post holes at least a foot in depth must be sunk every 15 feet in the bottom of the trench. In sandy soil the trench works excellently, but in clay soil it is off in an advisable as an extra precaution to heap up the loose earth on the crop side right along the trench. The small particles of earth loosen and cause the climbing worms to drop. Hence in clay or muck soil it may be advisable to scratch the face of the wall lightly with a garden rake. Do this also after rain. When the worms are unable to climb the wall they will pass lengthwise through the trench, and collect in the post-holes, where they may be killed by crushing or other means. In digging the trench ploughs may be used, but the balance of the work should be done with spades to insure a clean deep trench. Wherever the worms are found, prompt action is very important. have the same complaint as ourselves. If the service is any more abominable and the cars any filthier on the radial line than on the H. G. & B., then God help the poor people who have to travel on it.

If the residents along the radial line go after the Railway Commission they can count on a lot of assistance from the people in this district, and we would suggest that the Commission view both roads at the one time. If the Railway Commission are brought to this section to investigate matters, our only hope is that they will not take a trip over the H. G. & B., because they are very prominent men in Canada and we would not like to lose their services and would not like to see them take chances with their lives, by riding over the Niagara District's Famous Travelling Museum.

Rheuma Will Stop Uric Acid Deposit

Rheumatic Complications Checked and the "Human Sewers" Restored
The Kidneys, Bowels and Skin are the "human sewers" which carry off the impurities in the blood. When these are clogged Uric Acid sediment lodges in the muscles and joints and Rheumatism follows. RHEUMA, the great remedy for all forms of the terrible disease, checks the deposit of Uric Acid.

"For many years I suffered with Rheumatism. I am 71 years old, but am proud to say that after using one bottle of RHEUMA the Rheumatic pains are entirely gone. I daily recommend RHEUMA to my friends."—Willie Goff, Bridgeburg, Ont.

AILING WOMEN OF MIDDLE AGE

Mrs. Doucette Tells of her Distressing Symptoms During Change of Life and How She Found Relief.

Belleville, Nova Scotia, Can.—"Three years ago I was suffering badly with what the doctors called Change of Life. I was so bad that I had to stay in bed. Some friends told me to take Lydia E. Pinkham's Vegetable Compound and it helped me from the first. It is the only medicine I took that did help me and I recommend it. You don't know how thankful and grateful I am. I give you permission to publish what your good medicine has done for me."—Mrs. SIMON DOUCETTE, Belleville, Yarmouth Co., Nova Scotia, Canada.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness, are promptly headed by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried many women safely through this crisis. If you want special advice write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

CANADIAN EXPRESS

(Continued from page 1)
The fruit train that should have been in Ottawa market at daylight and in Montreal market at seven o'clock in the morning did not reach Ottawa until the next day and did not reach Montreal until the next day.

The Canadian Express Company's fruit service in the year 1914 can be compared to nothing else than on old heavey, spavined, ring-boned, knee-sprung, broken down horse, crippled and cramped and unable to move, crawling along the railroad track hours and hours after it should have reached its destination, bearing with it damage and decaying fruit that should have been rushed by an overnight service into the early morning markets of the big cities of the east.

The time has come when the railway commission of the Dominion of Canada, if they are to protect the people from utter apoplexy, should take hold of the matter and either compel the express company to deliver the fruit promptly and safely to the early morning markets of Montreal and Ottawa or else cancel their charter and put the old cripple out of business.

It is utterly and absolutely rotten that fruit from California, Texas and Florida can be put right into the Toronto and Montreal markets in very little more time than it takes the old, broken-down, dilapidated Canadian Express Company to carry fruit from the Niagara district to Ottawa or Montreal.

The handling of the fruit of the Niagara district is a MAN'S job and the Canadian Express Company is either sending cripples or boys to do the job. What is wanted is a man at the helm, a man with initiative, brains and executive ability and in sympathy with the business that he is supposed to be assisting. Weaklings should have no place in the executive of the Canadian Express Company and if there is a man in the whole control who is not a weakling, we would like to have his photograph. The whole Canadian Express executive should be re-organized and one wire put in charge, who will either infuse life into the rest of them or chuck 'em.

Of all the places in the world where a broken-down engine and dilapidated cars should have no place, it is in that of an express company which pretends to carry perishable fruit.

AN IDEAL VACATION TRIP VIA GREAT LAKES STEAMSHIPS
At this season of the year when so many are planning their vacation trip, the question "Where To Go?" naturally arises—what could be more delightful than a Great Lakes trip, where the air is pure, the sun shines and cool refreshing breezes blow?

Five sailings weekly from Port McNicoll for Sault Ste Marie, Port Arthur and Fort William. Steamship Express leaves Toronto 12.30 p.m. sail ing days, making direct connection. If you are contemplating a trip, don't let this slip your memory. Canadian Pacific Steamships make the fastest time, have the best accommodation and the table is unexcelled. Full particulars and reservations on trains and ships, at every Canadian Pacific Ticket Office.

Tobey, 50 and 52 James St. north, Hamilton, Ont.

DR. GEORGE C. CREELMAN
President of Ontario Agricultural College, Guelph, will sail from Vancouver next week to Auckland, New Zealand and from there will go to Australia, the East Indies, Manila, in the Philippines, thence to Hong Kong and Shanghai. Dr. Creelman is making the trip on the invitation of the New Zealand government, which is desirous of introducing Canadian agricultural methods. Meetings will be addressed at various centres.

Chocolate Cream Cake
Make a batter of 1 cupful of sugar, 1/4 cupful butter, 1/2 cupful milk, 2 eggs, 1 teaspoonful of vanilla and 1/2 cupful melted chocolate. Mix and stir in 1 1/2 cupful of flour into which you have sifted a heaping teaspoonful of baking powder. Bake this in two layers. When done put them together with the following "cream" between them. Stir together 2 cupful of granulated sugar, 1-3 cupful of an egg. Let stand in a dish of boiling water until the butter is melted, then put it on the stove where it will boil for five minutes, adding vanilla just before removing it from the stove. This is very smooth when done and looks very tempting when spread between the layers of cake.

HIS HEALTH IN A TERRIBLE STATE

"Fruit-a-tives" Healed His Kidneys and Cured Him

HAGHERVILLE, ONT., AUG. 26th. 1913.
"About two years ago, I found my health in a very bad state. My Kidneys were not doing their work and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-tives' advertised, I decided to try them. Their effect, I found, more than satisfactory. Their action was mild and the result all that could be expected. My Kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old-time vitality. Today, I am enjoying the best health I have ever had."

B. A. KELLY
"Fruit-a-tives" is the greatest Kidney Remedy in the world. It acts on the bowels and skin as well as on the kidneys, and thereby soothes and cures any Kidney soreness. "Fruit-a-tives" is sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c. or will be sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Arthur Spence, of North Hampton, England, a seven year old boy, arrived in GRIMSBY last week after a trip across the ocean alone. His grandmother put him on the boat at Liverpool and he came through to Toronto in charge of the boat and railway officials, where he was met by his father, who brought him to GRIMSBY safe and sound.

The car load of pre-cooled fruit shipped by E. J. Woolverton & Sons from GRIMSBY to Montreal, arrived in perfect condition. The fruit was Montmorency cherries picked ripe and they would not have shipped under ordinary conditions at all, but after being pre-cooled in the plant here they made the trip in first class shape.

Mr. H. L. Harshaw suffered a slight but painful accident while on his way to Hamilton on Thursday last. He was going into the city in the 1.19 train and sat with his elbow resting on the window sill with the window open. When passing through the yards a freight train passed and some article or a car door struck him on the elbow, slightly cracking it.

The heavy rain and windstorm on Thursday morning last tied the H. G. & B. up for a few hours. A big tree on the edge of the track at J. A. Pettit's blew over just as the 11.30 was passing and fell right on the car. The roof was caved in but no one was injured. It is a shame that this accident should have happened, as the company's "high-class" cars should not be subjected to such hard blows. The wonder of it all is that the dirty old junk heap did not fall completely to pieces, when the tree toppled on it.

PRESBYTERIAN YOUNG PEOPLE'S SOCIETY

The members of this society have discontinued the weekly meetings and are holding monthly reunions in different parts of the town.

On Monday, June 22, Mrs. David Jackson kindly invited the society to hold their meeting on her lawn.

Rev. L. H. Currie, presided. The subject for discussion being "The Ministry of Music," which was introduced by Mr. Cullingford. An enjoyable musical programme followed, in which the following took part: Mrs. Ramsay Stone, Mrs. Gordon Moffatt, Mrs. Norman Walker, Miss Ada Jackson and Miss Violet Walker.

The serving of refreshments followed after which the young people spent a pleasant time with outdoor games in the moonshine.

On Monday last, by the kind invitation of Mrs. Murray Beamer, the young people visited her home on the mountain, being conveyed on drags, piloted by Mr. Cullingford. Mr. W. Gibson and Mr. Gordon Tenny. The meeting was held in the drawing room. Mr. Cullingford presided, as excellent address on "Friendship" being delivered by Rev. L. H. Currie. Those who contributed to the programme were: Pianoforte selections, Miss Vera Beamer, Miss Ada Jackson, violin solos, Mr. Wm. Gibson; songs Miss Libbie Flett and Mr. Cullingford. After partaking of refreshments the company joined in a hearty rendering of "Auld Lang Syne" and left for a pleasant ride homeward.

"FOUR NIGHTS OF GLADNESS"

The second annual open air festival under the auspices of St. Joseph's Church, GRIMSBY, will be held on the Church grounds, Paton St. N. on the afternoons and evenings of July 29, 30, 31 and Aug. 1.

The festival last year was the one big event of the season and this year's festival promises to eclipse the other one in every way.

To-night is the opening night and you want to go and have some fun and help along a good cause.

Orchestras will be in attendance every evening and dancing will be permitted and amusements and refreshments of all kinds will be provided.

A popularity contest between two beautiful young ladies is now being contested and the result will be announced on the last evening of the festival.

The musical programme will be augmented by assistance of several high class artists, consisting of: Miss Genevieve Kelly, Directress of St. Francis choir, Toronto; soprano. Miss Maud Collins, soprano; Miss Annie Connors, accompanist; Miss Annie MacDonald, elocutionist; Misses Rose Lee, Ethel Johnson, of Toronto.

A WISE MAN

There was a man in our town, And he was wondrous wise; He bought his wife a new silk gown In way of a surprise.

He paid just \$19.95, He told his wife in glee; He looked at him in deep disgust, "You could have bought that dress down town For \$7.32. Why don't you read the ads., my dear As really wise men do?"

To Serve With Salad

When you want something especially nice to serve with salad, mash a cake of cream cheese, season it with pepper and celery salt and add a little cream if it seems dry. Butter a platter and spread the cheese on it, flattening it out like a pie crust. Cut it into squares, rather smaller than the crackers you are to use, and decorate each square with a bit of candied cherry, a nut meat, a seeded raisin and whatever else you may happen to have; then with a thin pliable knife lift each square on to a toasted cracker and serve with your salad.

Mrs. John Gilmartin and Mrs. Frank Vinnall, of Brantford, spent Sunday with Mr. and Mrs. Jack Gilmartin.

NORTH GRIMSBY TOWNSHIP MILK REPORT

Farmer	Sample	Percentage of butter fat, not fat, gravity	Specific Gravity	Sediment	Total Solids	Per cent

"H"	3.6	8.9	1029	"	12.5	"

All milk containing less than thirteen per cent. (13 per cent.) of total solids of which three and three-quarters per cent. (3.75) must be chemically dry butter fat, should be deemed below the standard required when the same is intended for human consumption.

Yet when the health of the children is considered, the amount of butter fat is secondary in importance to CLEANLINESS. Clean cows, clean milkers, clean stables, clean pails and cans (not rusty) clean strainers, etc., are indispensable. Otherwise the deaths of many children may be laid at the door of those who neglect these necessary precautions.

CLEANLINESS is also, and no less,

obligatory on the part of the CONSUMER. The best of milk may be ruined after it has been delivered in good condition to the consumer.

Either keep the milk cool by ice or by wrapping the bottle or jug in wet flannel or double cheese cloth and place in a shallow vessel containing water. Evaporation will help to keep the milk cool; or pasteurize it first and then immediately cool it. Pasteurization can be performed by anyone. Heat the milk to a temperature of 150 degrees for half an hour, preferably in a rice boiler, then cool quickly and keep cool. (Not necessary to boil.) It is much safer for the child to have milk that has been pasteurized. Also cover the bottle or jug to keep out flies and dust.

CIVIC HOLIDAY

Monday, August 3, will be civic holiday in GRIMSBY and it will also be the first matinee of the season at the GRIMSBY Driving Park.

"BABYLON"

Wonderful Oriental Spectacle at Canadian National Exhibition

"Babylon," the magnificent Oriental spectacle now in preparation for this year's Canadian National Exhibition, Toronto, will outshine in the beauty of its coloring and costumes, its life and the number of its people, any similar spectacle ever produced on the American continent.

The very name "Babylon" is a synonym for luxury and lavishness, and the story of the handwriting on the wall that dazed the rioters at the feast of Belshazzar, and later the destruction of the most beautiful city of ancient times, lend themselves readily to romantic depiction and spectacular reproduction. The material is all ready to the hand of the author and artist.

When it is learned that a thousand costumes for the king, the nobles, the state officers, the envoys of other nations, the priests, the warriors, the Assyrian guards, the Nubians, the Arabs, the slaves, the charioteers, etc., etc., are being imported, that they will be accurate in every detail, you can form some opinion of the riot of color the stage will hold.

The stage setting will consist of a view of the ancient city 700 feet in length—the largest in the world.

WINSLOW

The Ladies' Aid Garden party which was held on the lawn of Mr. and Mrs. H. Cosby, on Wednesday evening last was successful in every respect.

An old and highly respected land-mark in the person of Mrs. William Novilla, of Calster, passed away on Sunday morning last. Mrs. Novilla had attained the ripe old age of 85 years.

The wheat harvest is practically all in the barns and ready for the threshing.

Mr. Erwin Cooper, of the Union Bank staff, Toronto, visited with his parents, Mr. and Mrs. Frank Cooper, of this place on Saturday and Sunday last.

The funeral of Mrs. Suter, widow of the late William Suter, of Attercliffe, took place on Sunday last.

The ladies of this place appreciate very much the way in which the friends of Bismark turned out to their annual garden party on Wednesday evening last.

Mr. and Mrs. Ira Griffin, of Hamilton, visited friends in this place on Sunday last.

Much credit is due to the program committee for the excellent program which was given at the ladies' festival on Wednesday evening last. Mr. Murray Lymburner's new house is nearing completion. It is a fine residence in every respect.

A WESTERN ROMANCE

The play decided upon by the management for the last half of this week at the GRIMSBY Beach Auditorium, is one of the western mining country, and is as full of comedy as a sieve is full of holes.

The name of the bill is "A Western Romance" and it has a "Punch" in it that will fairly stagger you.

The comedy is of the rarest kind and gives that irresistibly funny man, Eddie Black, great scope for his famous "Country Kid" stunt. Mr. Black will be seen at his best in the fun-making by Miss Burdell. You do not want to miss seeing this pair in this bill.

The rest of the company have good strong parts and from the appearance of things at rehearsals, this bill will be the funniest and best yet produced at the Beach.

The production of "Ten Nights in a Bar-Room" will be a dandy and besides the regular company will carry with it an amateur of local fame who thinks he can act, but can't.

After splitting the breeze all summer around the Auditorium about his wonderful ability before the foot-lights, he has at last got a chance to show what he can do. The management of the company got tired listening to this wonderful Booth, Barret, Sothern, Irving all rolled into one man talk, so they gave him a chance and then he wanted to back down, but they held him to it and he was game so in "Ten Nights in a Bar-Room" he will be given a chance to spoil the show, which he will, undoubtedly, do.

We will tell you next week who the budding "star" is.

"A FETE IN FLOWER LAND"

On Friday and Saturday nights of next week The Knickerbocker Stock Co. will be away from the Auditorium and their place will be taken by a grand production in the form of an Operetta, entitled "A Fete in Flower Land" by an amateur cast under the direction of Miss Bertha Adams.

Miss Adams has produced operettas of a like nature at the Beach before and this alone is sufficient to back the big house at both performances.

About one hundred and fifty local people and children make up the cast and you are assured of an excellent evening's entertainment. The costumes are beautiful, the music is catchy and the singing and dancing are exceptional for a local cast.

The theme of the Operetta is as follows:

Fairy of the Flowers arrives early in spring and, after inviting mortals to visit her "fair and fragrant flower land," notices that no flowers have awakened from their winter's sleep. She bids her subjects come and make merry for her visitors. Snowdrops, rudely awakened, have no time to put on their festive robes, and appear as they have been sleeping all winter and sing "Just Waking Up." Fairy turns her attention to Violets—no burst forth a all the sweetness and fragrance for which they are famed.

After listening to Violets, she calls Daisies and Daisies respond, but no flowers fail to appear and are afterwards reprimanded by Fairy. As listening to their apologies for not obeying, Fairy is at last pacified. Roses also arrive and contribute to the entertainment. Fairy, at last, being tired, is lulled to sleep by the lullaby of the Poppies, who arrive in time "to drop sweet dreams for every one."

Fairy is at last startled awake by the departure of Summer, and, being about to take her own departure, notices Sweet-Peas tending about the garden, and bids them appear. They appear, and sing "Farewell to Summer." November arrives with all its Thanksgiving splendor, followed by winter. Flowers sleep all winter and are awakened by Fairy. The play closes with a grand tableau and chorus.

"DYNAMITE" DILLON SAYS CANADA HAS REAL PRISON

Atlantic City, N. J., July 25.—Here is a man—a Philadelphia man at that—who was so long shut up in a virtual tomb that when he emerged into daylight, ten days ago, he was as utter stranger in a strange world that blazed with wonders to his unaccustomed eyes, like Baghdad of the magicians. This man is Luke Dillon, who was paroled from the Portsmouth penitentiary in Canada on July 12, after fourteen years of dungeon life for complicity in the dynamiting of the Welland canal, in Ontario in 1900. Such was the degree of his isolation since his sentence to life imprisonment that the first he did after being liberated was to send a friendly telegram to a man who had been dead for nine years.

In fourteen years Dillon was allowed to address only two persons, the prison chaplain and the guard at his cell. He had never heard of the wireless or of flying machines. The lone hour in all the fourteen years, Dillon said, was when he was lost on the Atlantic City boardwalk, searching for his wife whom he hadn't seen since the day of his sentence.

"I was to meet my wife at a hotel here," said Dillon. "I sent her a telegram. When I got there I found that the hotel had been torn down, so I had nothing to do but walk about and look for her in the crowds for I knew she'd come. I found her at last, though we both had changed and we had to do the finding between us."

"I had my first ride in an automobile that day, and they are queer things. The man just kicked something under his foot and the thing went wherever he wanted it to. I'd heard of the moving pictures. Do you mind the old Punch and Judy shows? Well, I thought they'd be like that. I was sitting in the place waiting for the lights to be turned on. Think of that! And then, all at once I saw the thing flash up at the end of the room and it looked like a lot of grey ghosts. It wasn't what I expected to see at all."

"I'd never seen a subway till the policeman at Broad Street station told me to go in it to get to the ferry. 'Down the steps,' said he. 'A railroad under the ground!' says I. 'Sure,' said he, 'where are you from that you don't know of it?' I didn't say aught to that, but went in and along comes the train. I held my hands to my ears. It was a painful uproar after all the stillness that I'd been through."

"Here in Atlantic City I saw a man flying up in a machine—right in the face of the sun. It is a wonderful age, a wonderful age. But why don't they train their reason and why can't they be wise in other things as well? Tell me that."

Prison a Tiny Hell
"For a time after my imprisonment," Dillon said, "I thought of suicide. They have real penitentiaries in Canada—they make them as near like tiny hells as they can, so that men who have once been there won't want to go back."

"I didn't see a newspaper in all the fourteen years, nor did I see a knife or fork. I ate all my meals in my own cell and I was compelled to eat them with a spoon. Speech among the prisoners is forbidden."

"They first put me to work piling bricks," said Dillon, "but later, when they found I was trained in a bank, they put me to clerking. I begged for a change from that, because it gave me too much time to think. I had seven years of it."

"Five years ago they put me in the shoe shop cutting leather and I learned that trade pretty thoroughly."

Sympathizers in Canada really so cured Dillon's parole, he said.

"The Canadians are intensely sensitive about any interference from this side of the border," said Dillon, "and any suggestion of aid from this side would probably have done me more harm than good. That doesn't lessen the gratitude I feel towards a few friends of mine in this country who tried to do what they could in my behalf. All I wish now is a little peace and a chance to get acquainted with the changed conditions. I shall try to make my peace openly in society and to forget bygones."

YOUNG FARMER KILLED

A fatal accident occurred at the home of Mr. Archibald Quance, a mile and a half south of Elfrida, in the Township of Blinbrook, Friday evening, about 6 o'clock. Mr. Quance was engaged with two men unloading wheat into his farm by means of a rock lifter. He was on a beam with a fork, trying to steer the load clear of some beams when he became caught between the load and one of the beams. He was instantly killed—death coming so suddenly that he did not utter a sound. One of the hired men was in the mow and saw the trouble almost immediately, but could do nothing. Deceased was held so fast that the two men could not release him and had to send for Mr. Wm. Quance, father of the deceased, on the next farm, to help them. Dr. Bethune, the latter of this city, who was visiting near by, hastily summoned, but could do nothing. The facts were so apparent that it was not deemed necessary to hold an inquest.

Mr. Quance was 27 years of age and owned and worked the farm where the accident occurred, but lived with his parents on the adjoining farm. He was building a home on his own farm and was to have been married this coming fall. He also leaves two brothers, Samuel and Richard, and one sister, Miss Edna, all at home.

Deceased was a highly promising young man, of quiet, but studious nature, an excellent public speaker and highly thought of by all. Great sympathy is extended to the family, which has suffered very great trials recently, including losses by fire, accidents to stock and accidental death of members.

BOY SCOUTS OF ONTARIO

Will bid farewell to their Chief Scout at the Canadian National Exhibition, Toronto. An event that is eagerly looked forward to by the boys of the Boy Scouts is the rally at the Canadian National Exhibition.

This year's event promises to eclipse all previous records and great things are planned. The rally will take place on Saturday, September 5, and will be in the form of a grand farwell to His Royal Highness, the Duke of Connaught, Chief Scout for Canada.

Arrangements are being made to give those who attend a good time. The boys will be camped upon the grounds of the Exhibition and nothing will be spared to make each boy comfortable. There will also be given a grand illuminated pageant of floats showing the various activities of this great Boys Welfare Movement.

It is hoped that every district in this Province will be represented at this, the greatest boy event yet held in Canada. The main object is to get the boys and districts to know one another along the lines as laid down in the training of a Boy Scout. In other words, to cement still further that bond of good-comradeship that exists throughout the organization.

Further information will be forwarded from the Provincial Office, Sherbourne & Bloor Sts., Toronto. Any questions will be answered upon application to the Secretary.

WEALTH OF HAIR

Parisian Sage Makes Thin, Lifeless Hair Soft and Abundant.

Beautiful hair, thick, soft, fluffy, lustre, and free from dandruff, is one of woman's greatest charms, yet so many have streaked, thin and lifeless hair and think there is no remedy. Pretty hair is largely a matter of care.

Frequent applications of Parisian Sage will rubbed into the scalp is all that is needed—it acts like magic. Try it tonight—you will really be surprised with the result. Not only will the hair become soft, fluffy, radiant with life and really doubly beautiful, but all dandruff disappears, falling hair and itching scalp cease—your head feels fine.

All druggists sell a large bottle of Parisian Sage for 50c. Get it from W. M. Stewart Drug Co. He will refund the money if you are not satisfied.

HINTS AND HELPS FOR LADIES

Fruit Cake
One pound of sugar, 1 pound of butter, 1 pound of flour, 2 pounds of raisins, 3 pounds of currants, 1 pound of citron, 10 eggs, 10 cupsful of molasses, large teaspoonful soda and all sorts of spices. Bake four hours in a moderate oven, or steam four hours, closely covered and bake one to dry off. This makes two large loaves.

Coffee Cake
Four pounds of flour, 3 pounds of butter, 3 pounds of sugar, 4 pounds of currants, 2 pounds of raisins, 1 pound of citron, 24 eggs, 3 nutmegs, 1 ounce mace, 1 pint molasses and 1 teaspoonful of soda. Bake or steam as above.

Cream Cake
One cupful of sugar, 1 cupful of sweet cream, 2½ cupsful of flour, 2 eggs, 2 teaspoonfuls of cream of tartar and 1 of soda sifted in flour and a little salt, flavor to taste.

Cocoanut Cake
One cupful of cocoanut, (Metropolitan), soaked one night in a cup of sweet cream, 1 cupful of sugar, 2 cupsful of flour, 2 eggs, 2 teaspoonfuls cream tartar and 1 of soda sifted in flour and a little salt.

For the benefit of novices in house keeping, I will say, always line the bottom of your baking tins with paper; and you will rarely have to mourn over burned cake. I prefer clean, brown paper such as the dry goods dealers use.

To make it, season apple jelly with lemon juice, paprika, salt and pepper enough to give it a sharp flavor, then pour into a wet mold. When it is firm, decorate it with cold peas, string beans, bits of pickled beets and sliced pineapples. Add a layer of peas, chopped nuts and diced chicken then cover with another layer of the seasoned jelly. Let it stand before serving until it has become quite hard. Another way to make this is to stir all the ingredients into the apple jelly before it hardens, then cut it in slices, which cold and serve with a sharp salad dressing.

Another nice dish that is not very common is

Date Pudding
To make it mix 1 cupful of pitted dates and 1 cupful of quartered walnuts, sprinkling a little flour over them. Now stir together 1 cupful of sugar, a pinch of salt, 2 eggs, 1 heaping teaspoonful of flour. Add the dates and nuts, and mix well, then let it bake for three-quarters of an hour in a slow oven and serve with sweetened cream.

My niece, knowing how I like to try new recipes, begged the following from a lady near her, who is noted for her good cooking.

SAFETY FIRST IS THE POLICY OF THIS COMPANY

We want our goods to last long and give service all the time

There is an acknowledged standard weight of copper. Our Seven-Strand Cable is a very heavy rod. Prof. Day, in his bulletin 220, says of it: "No. 6 has about 1½ times the standard amount of copper and is unquestionably the best of the six copper rods. Its resistance is lowest, meaning it is the best conductor. Its heat capacity is highest, its durability greatest." To which we can add nothing beyond recommending its use.
